LAST REVISION: SEPTEMBER 2020

ALL OF THE CHARACTERISTICS, TECHNICAL AND DESIGN SPECIFICATIONS, MATERIALS, AND THE EXTERNAL APPEARANCE OF THE MODELS LISTED IN THIS CATALOGUE ARE CORRECT AS OF THE TIME OF LAST REVIEW, SUBJECT TO MODIFICATIONS.

LS2 IS NOT RESPONSIBLE FOR POSSIBLE PRINTING ERRORS AND UNAVOIDABLE COLOR DIFFERENCES BETWEEN THE IMAGES HERE IN AND THE ACTUAL PRODUCT.
THE COMMITMENT TO THE SAFETY OF THE MOTORYCLISTS HAS ALLOWED LS2 TO LOOK BEYOND THE HELMETS, TO COMPLETE THE DEVELOPMENT OF AN APPAREL COLLECTION DEDICATED IN PARTICULAR TO THE SPORTS TOURING, TOURING, ADVENTURE AND URBAN WORLDS:
JACKETS, TROUSERS AND GLOVES SPEAKING TO A TARGET INTERESTED IN SAFETY, QUALITY AND DESIGN. FOR AN GROWING SAFE AND COMFORTABLE RIDING.
Denim fabric retains the authentic look and feel of cotton denim, but with added abrasion resistance, and toughness. Are exceptionally durable without compromising on comfort and style. The heavier the denim, the more rigid, the garment and the more abrasion resistant it will be.

Made totally of 100% polyester created with the special knit of this material makes it extremely stretchy, ideal for use in under garments and comfort-adding collars. It provides of wind protection.

This stretch fabric made of polyester yarn makes a perfect, form-fitting medium for areas at lower risk of impact, helping keep riders comfortable and in control.

This stretch fabric made of polyester yarn makes a perfect, form-fitting medium for areas at lower risk of impact, helping keep riders comfortable and in control.

HOW MEASURE YOURSELF

1. Body length
2. Length from shoulder to waist
3. Waist circumference
4. Leg length

Man & Lady

Nevada

Touring Jacket & Pants

NEVADA is the top of the range three-ply jacket of the LS2 collection. It features ventilation panels on the sleeves, reflective zippers, as well as two large front and one back opening (all openable by means of YKK zips) which ensure air flow when temperatures rise. The inside consists of removable thermal down and, as already said, of a waterproof membrane.

The three-ply NEVADA pants complete the jacket. Made of technical fabrics, they feature mesh inserts, which facilitate ventilation when the two inner layers are removed, and reflective inserts, which help make the rider more visible. Thanks to the Velcro fasteners on the leg, the pants can be tightened as required.

NEVADA is available, men’s sizes S to 5XL and women’s sizes XS to 5XL.

PETROL is a two-ply jacket with reflective inserts, making the rider visible even in low light conditions and featuring large mesh areas on the sides and back, which make it possible to also use the jacket in summer after removing the internal waterproof membrane. Both garments have removable EN1621-1: 2012 Level 1 CE protectors on the shoulders and elbows and feature a back pocket to insert the back protector.

PETROL is available, men’s sizes S to 5XL and women’s sizes XS to 5XL.

Racing Style

- Gate 113
- Serra EVO 119
The latest collection additions end with the Racing world, of which GATE is part. This is a two-ply sports garment: the outer layer, in polyester, is waterproof and breathable, while the inner thermal liner is removable. The technical features are such as to make the garment perfect in terms of safety and comfort: the adjustable snap fastener on the neck, the presence of adjustments on the arm and the ventilation zip on the sleeve and back enable the rider to face any challenge, in any condition.

Vintage Style

- Bullet 113
- Bond 119
- Vesta 122
Is instead an urban-cut jacket with a casual, sporty and wrap-around style. The design and colours follow vintage trends, but the fit and technical features are cutting-edge. The LS2 team has worked to achieve a very high level of comfort, thanks to the mix of cotton and polyester with leather inserts, without neglecting technical aspects such as waterproofing (the jacket can withstand a water column of up to 5000 mm) and ventilation in case of high temperatures.
