

**LS2**  
apparel

**APPAREL**  
COLLECTION 2023-2024

The LS2 logo is displayed in white, italicized, sans-serif font on a red rectangular background in the top right corner.

The LS2 brand was born in 2007 with a clear purpose of becoming the world market leader in the motorcycle helmet industry. More than 30 years of experience of its parent company, MHR, has contributed to its rapid growth.

LS2 covers all needs of two-wheel lovers from "head to toe": helmets, jackets, pants, gloves, boots and goggles.

Distributed in more than 125 countries, being market leader in many of them, LS2 is undoubtedly the fastest growing brand in its industry: a great demonstration of love and trust by motorbike consumers.

# BRAND PILLARS

## 01 SAFETY

Protecting your dreams! Safety is our number one priority; we are committed to offer maximum protection to all our riders.

## 02 QUALITY

We only use high quality materials! Our products meet or exceed the most demanding test standards required internationally.

## 03 INNOVATION

LS2 constantly invest in R&D and we are continuously searching for modern technology to incorporate into all our products.

## 04 DESIGN

Style and design! We are highly creative in terms of graphics and product design without compromising on quality and safety.

## 05 PASSION FOR RACING

We love motorsport! LS2 is a proud sponsor of several riders in different categories (moto2, moto3, SuperBike, Dakar and many more)

**APPAREL**

# MATERIALS

## DUPONT ARAMID FIBER

Aramid fibers are known to provide additional strength, flexibility, and lightweight protection when combined with modern fabrics, making materials more resistant to cuts and abrasions. Though very lightweight, heat and fire-resistant Aramid fibers are extraordinarily strong: up to five times stronger than steel. That's why LS2 uses Aramid fiber as reinforcement in our jeans and casual pants.

## CORDURA

Cordura is a DuPont-developed abrasion-resistant nylon fabric. It is made using a special weaving process that creates a dense and uniform fabric structure. This fabric is then treated with a finish that helps to protect it against abrasion and water. The durability of this fabric is twice as high as that of standard nylon fabrics and ten times as high as that of cotton. Cordura is available in a variety of weights and thicknesses. Because it is a high-performance fabric ideal for applications that require durability and abrasion resistance, leading armed forces around the world are increasingly using this product to make military equipment with outstanding performance.

## OXFORD FABRIC 600D

A very special material that offers a higher level of performance than other materials of equal weight. This allows for high abrasion and tear resistance in a lighter, more comfortable garment. Oxford polyester fibers also have the advantage of being wrinkle resistant and offers outstanding shape retention. The polyester fiber fabric used in our LS2 garment collection has passed European environmental protection tests such as OEKO-TEX Standard 100 and EN17092. LS2 uses a special treatment that makes the polyester fiber softer to the touch without affecting its high performance.

## OXFORD FABRIC 450D

A lighter weight version of our Oxford 600D fabric, our 450D Oxford fabric maintains the same performance edge over its competitors, offering a higher level of abrasion and tear resistance in a lighter, more comfortable material. Oxford polyester fibers also have the advantage of being wrinkle resistant and offering outstanding shape retention. The surface texture of the fabric is soft to the hand and ultra-comfortable.

## SPANDEX

Spandex is the leader in high stretch comfort fabrics. Made from polyurethane fiber, Spandex makes for a perfect, form-fitting, flexible material. Its unique composition allows this fabric to guarantee outstanding comfort and freedom of movement.

## RIPSTOP

Ripstop fabric has reinforcing threads woven in a grid pattern throughout the material. This webbing adds strength, abrasion and tear resistance, making for an exceptionally durable garment, while maintaining a high level of comfort.

## 3 LAYER SOFTSHELL

Developed to improve comfort while maintaining a high level of water resistance, 3-layer softshell fabric is a modern marvel. Made of super elastic polyester, our 3-layer softshell combines unmatched strength with elastic properties for extraordinary levels of comfort and performance.

## OXFORD DOBBY

Oxford Dobby Laminated fabric is the result of combining super strong, abrasion and tear-resistant fabric with waterproof and breathable materials for state-of-the-art comfort and performance. The outcome is a masterpiece in material engineering that further raises the bar in terms of the quality, safety, comfort and style for LS2 motorcycle apparel.
